Content

This presentation covers:

- 1) Disability-Inclusive Entertainment
- 2) Cinema & Media
- 3) Arts
- 4) Theme Parks
- 5) Fashion
- 6) Dancing
- 7) Gaming
- 8) Reading Resources

Prepared by:

- **Yasmine Mohamed El-Hady**/ Project Executive ([LinkedIn](#))
- **Dr. Mostafa Attia**/ International Disability Inclusion Consultant ([LinkedIn](#))

Disability-Inclusive Entertainment

The entertainment activities that are disability-friendly and accessible to all are called “Inclusive Entertainment”

It is when a person with a disability can equally amuse and enjoy their leisure time without exclusion or barriers.

Entertainment can be in the form of:

Cinema & Media

Arts

Theme Parks

Fashion

Dancing

Gaming

Cinema & Media

Cinema & Media

Cinema is becoming inclusive by embracing representation, accessibility, and authenticity

Representation

Stories now feature persons with disabilities (PWD) as authentic characters, portrayed by actors with lived experiences (e.g. Hala Khasa Series).

Accessibility

Films integrate captions, audio descriptions, and adaptive technologies to ensure everyone can experience the magic of storytelling (e.g., Ma Waraa Eltabeea, Atabat ElBahga series).

Representation

Does Cinema Represent Persons with Disabilities Powerfully?

Arts

The Metropolitan Museum of Art

An encyclopedic art museum in New York City. By floor area, it is the fourth-largest museum in the world and the largest art museum in the Americas.

It includes a collection of ancient [Egyptian art](#) consisting of around 30,000 objects of artistic, historical, and cultural importance.

Multisensory
Workshops

The Egyptian Museum in Cairo (EMC)

The oldest archaeological museum in the Middle East, housing over 170,000 artefacts. It has **the largest collection** of Pharaonic antiquities **in the world**.

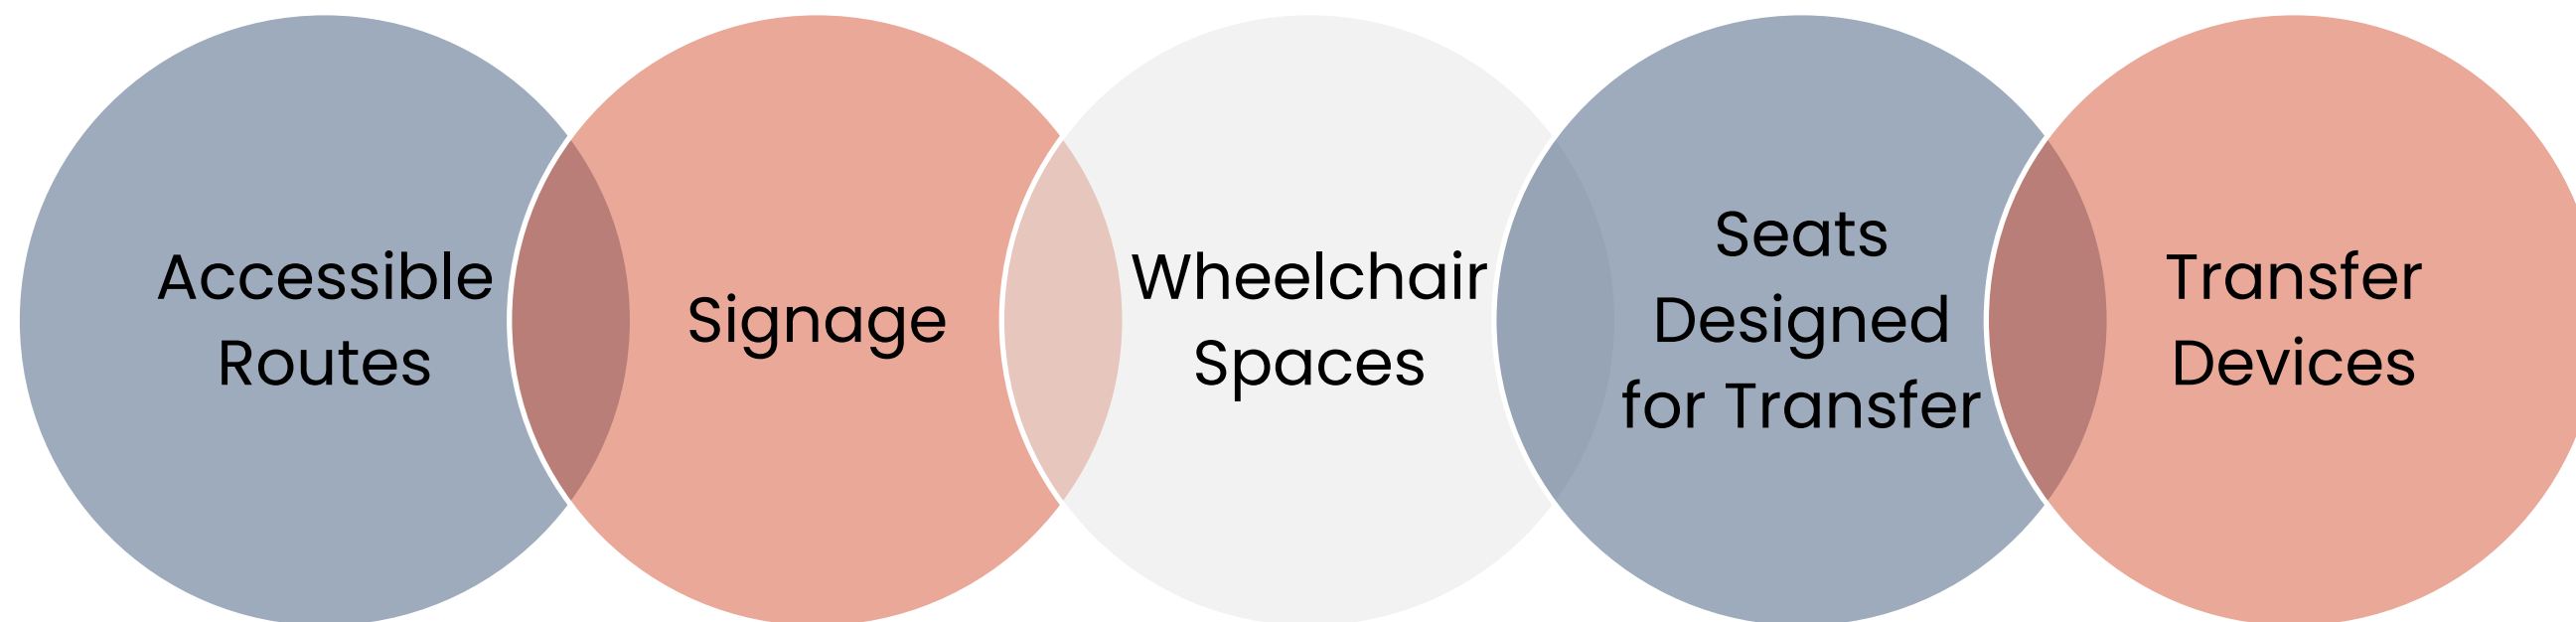

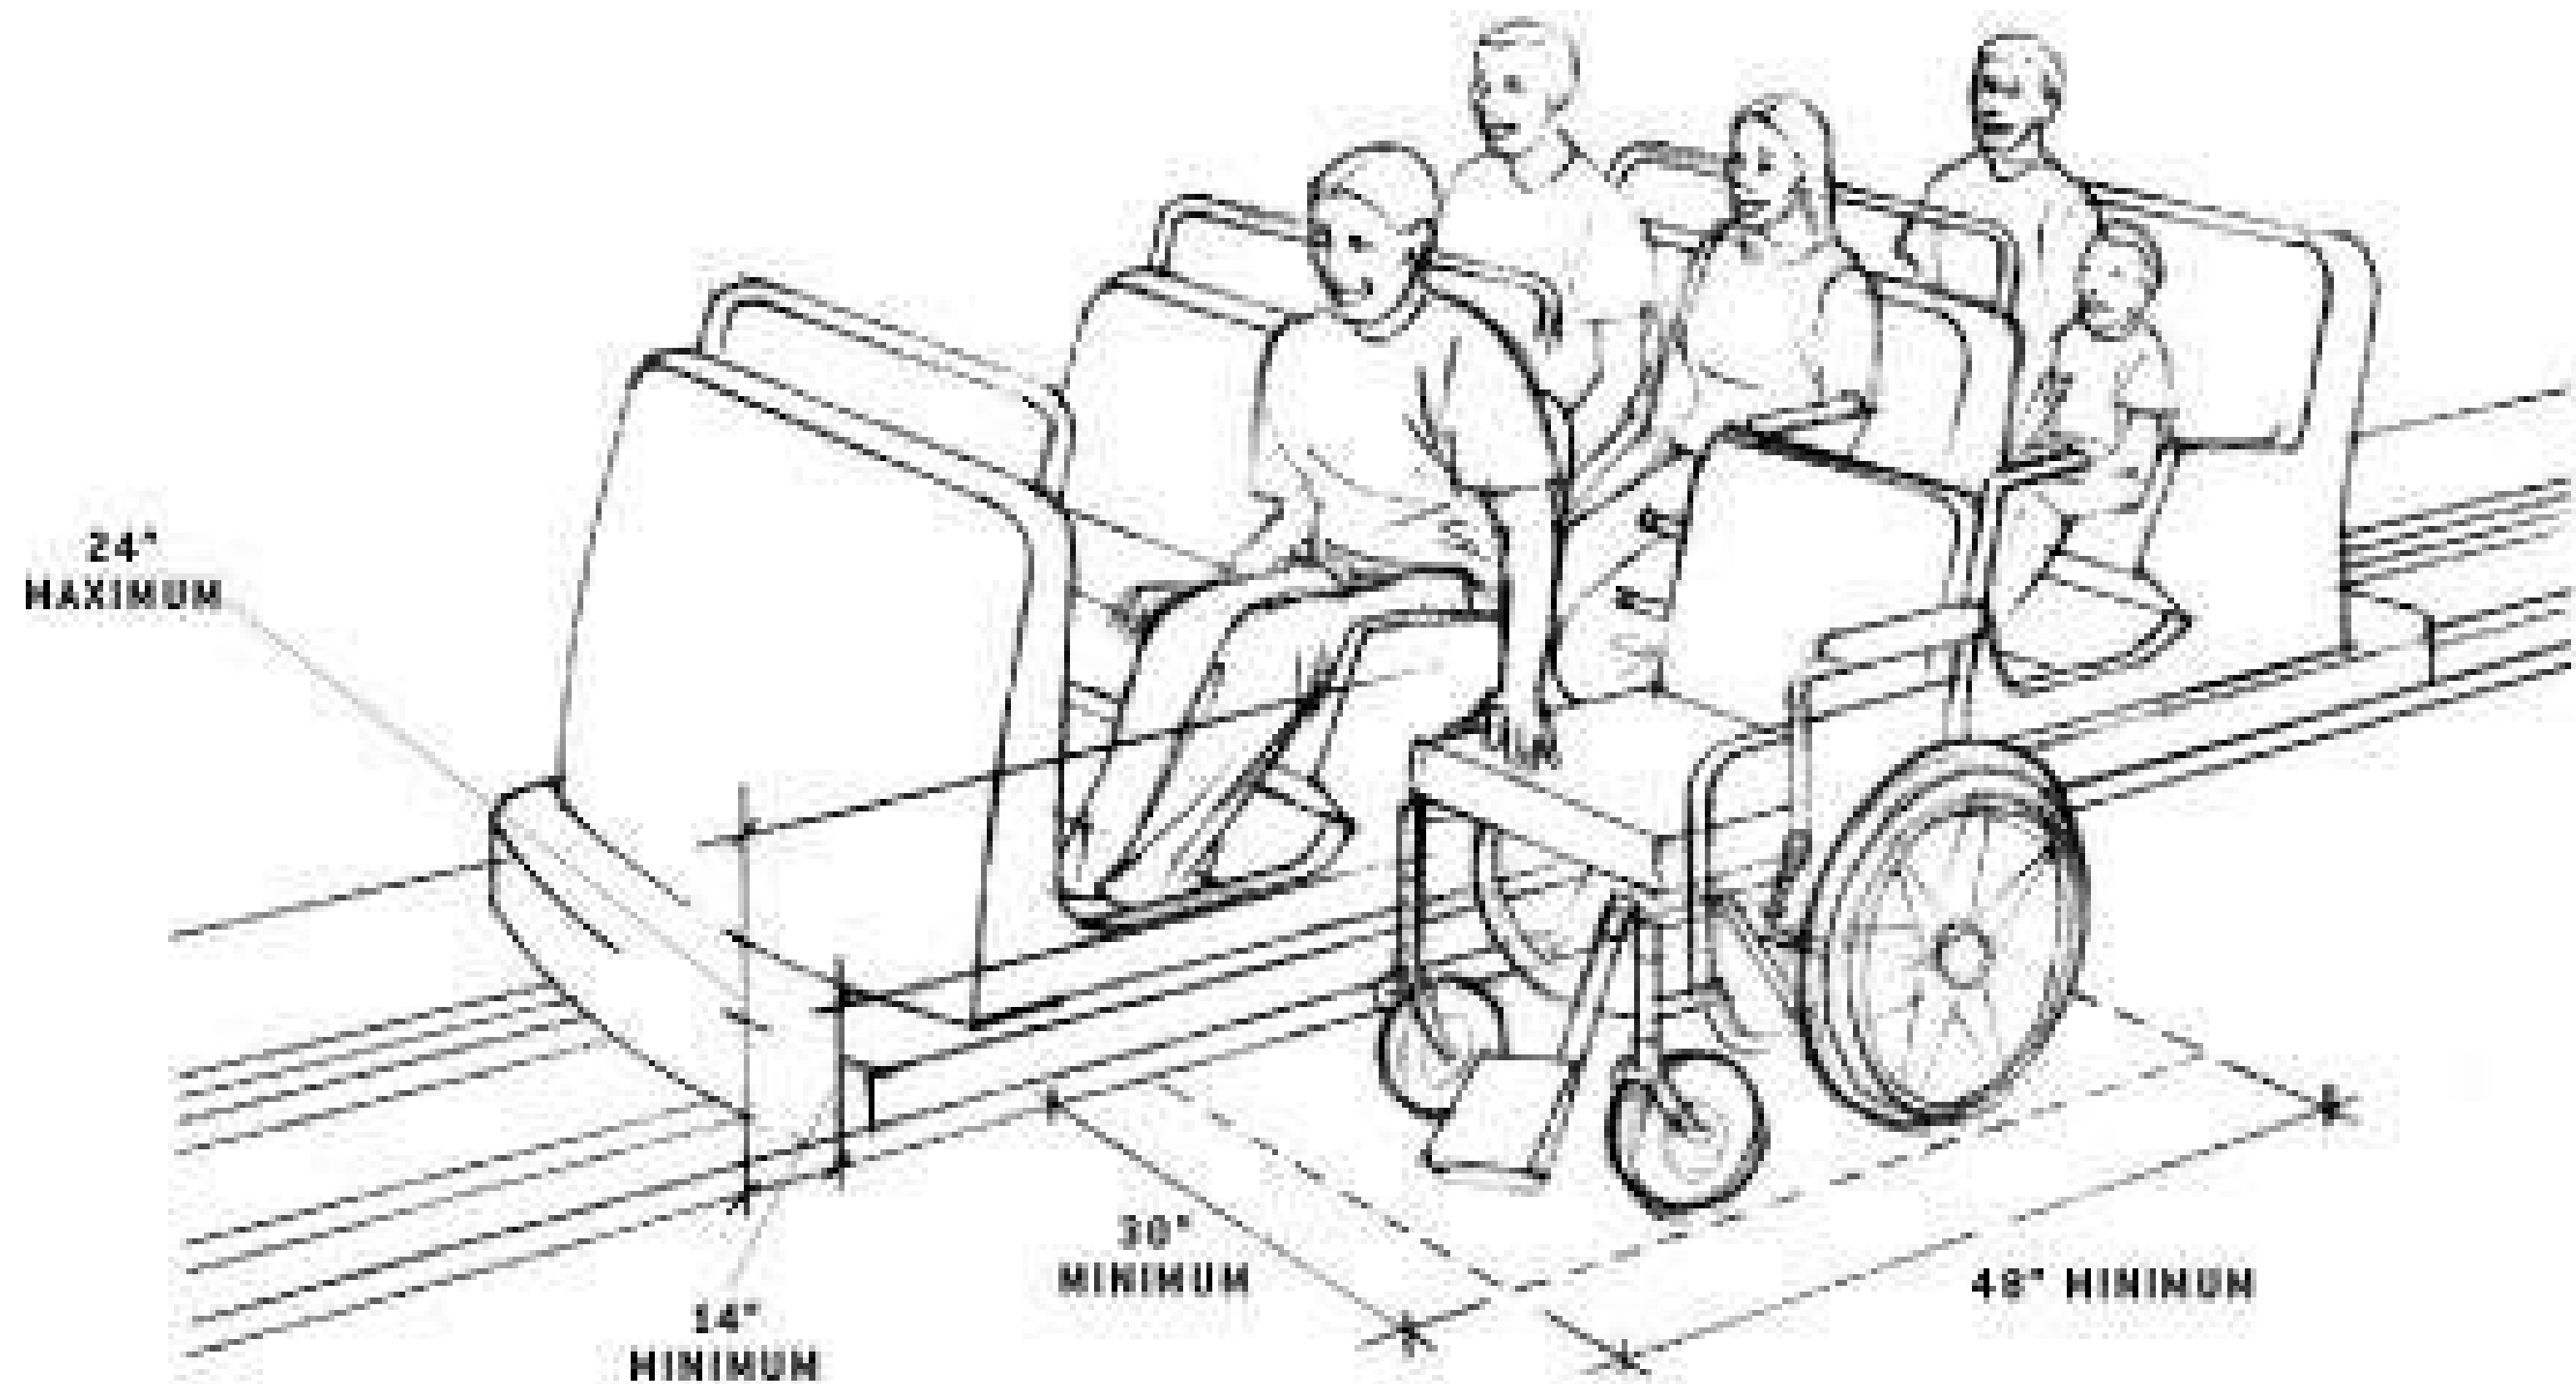

Theme Parks

ADA Accessible Amusement Park Guides

They address elements commonly found at an amusement park or theme park, such as accessible vehicle parking spaces, exterior accessible routes, and toilet and bathing facilities.

RISE SEAT DESIGNED FOR TRANSFER

Morgan's Wonderland

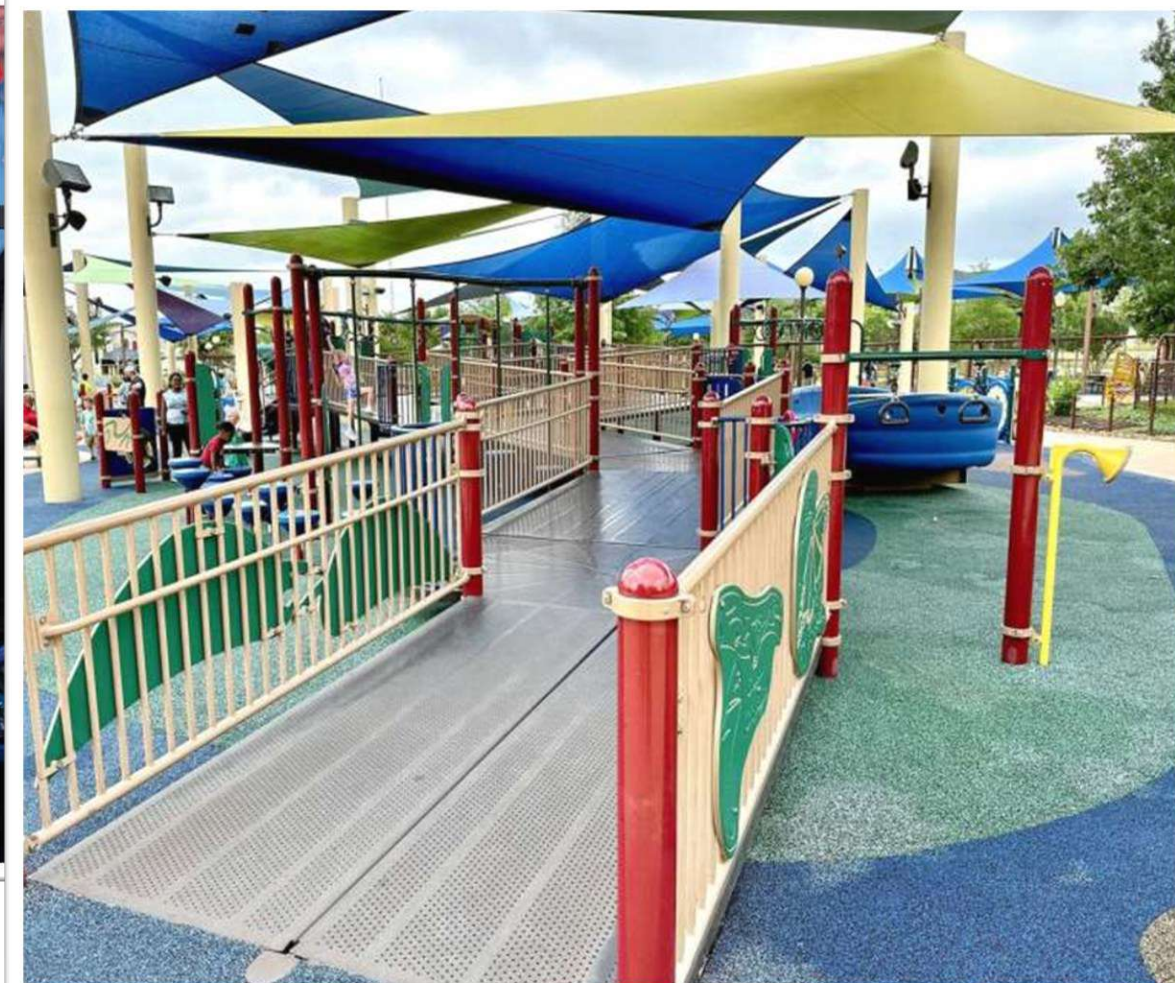

The World's Ultra Accessible Theme and Aqua Park in San Antonio, Texas.

The games are wheelchair-friendly and **sensory-friendly**, as they can enjoy the colors **without** feeling overwhelmed by **flashing lights and sounds**

Accessibility Everywhere

Disneyland Resort

Mobility

Wheelchair Access Vehicles (WAV)

Remaining in a wheelchair without transferring

Transfer Devices

transferring between a wheelchair and a ride vehicle seat

Neurodivergent

Sensory Experience Guide

Guests who identify as being neurodivergent, have anxiety, PTSD, utilize a service animal, or are sensitive to their environments may benefit from the guide. It includes the provision of 11 sensory elements (e.g. light, smell, noise, trip time) per experience

Fashion

Adaptive Fashion

Does functionality come **at the expense of** Fashionable Clothes?!

Adaptive Fashion includes clothing, footwear, and accessories designed to meet the needs of individuals with disabilities, limited mobility, sensory sensitivities, or other specific challenges.

It incorporates **functional modifications** that enhance ease of wear, comfort, and independence while **maintaining style** and inclusivity.

Adaptive Fashion

Adaptive Features include one-handed zippers and buttons (magnet/ Velcro), tag-free seamless shirts, open-back tops, expandable fastenings, and extra rooms for medical devices.

Watch the
[Video](#)

A photograph of several dancers in a studio, captured in a dynamic pose. The image is overlaid with a semi-transparent blue filter. A solid orange-red horizontal bar is positioned across the middle of the image, containing the word "Dancing" in white, bold, sans-serif font. The dancers are wearing light-colored, flowing dresses and are barefoot. Their arms are extended, and their legs are in various positions, suggesting a contemporary dance style. The background is dark and out of focus.

Relaxed Ballet Performance

'Relaxed' ballet aims to make a professional show accessible to all

Watch the
[Video](#)

A blue-tinted photograph of gaming equipment. In the upper left, a mechanical keyboard is visible. In the upper right, a wired computer mouse sits on a desk. In the lower left, a large gaming headset with a microphone is shown. In the lower right, a video game controller is visible. A semi-transparent orange rectangle is overlaid in the center, containing the word "Gaming" in white text.

Gaming

Game Accessibility Guidelines (GAG)

These guidelines are in three categories – basic, intermediate, and advanced.

The more advanced the game becomes, the more complex accessibility settings are required.

They are then grouped in sub-categories that relate to types of skill/impairment: motor, cognitive, visual, speech, and also some general considerations that apply to all areas.
